WHO WE ARE

AFCO STEEL scope of works includes Design, Fabrication, Painting , Delivery and Erection of Steel structural works.

AFCO STEEL is a specialized Factory in the field of Steel Fabrication. AFCO's domain ranges from heavy steel structures, PEB, Plateworks, gantries, bridges and other steel products. AFCO's plant is located at Jeddah's Second Industrial Area, Kingdom of Saudi Arabia. AFCO Facility was established on an area 100,000 sq.m, with over 60,000 sq.m of built-up area.

AFCO is high-tech facility, integrating Design, Fabrication, Surface treatment and Erection. Our Factory has all standard tools, equipment and machinery as described in this profile.

AFCO's Team consists of highly-qualified Engineers, technician and skilled worker to accomplish client's requirement with high standard quality work and fulfilling the required Project's schedule

AFCO posses annual production capacity of 60,000 MT per year of Structural Steel and 10,000 MT per year of the non-standard equipment steel fabrication

AFCO STEEL

AFCO STEEL is a Market Leader in the Structural Steel field, equipped with state-of-art fabrication facility. Our Projects covers multiple fields covers Commercial, Industiral, oil & gas, and more . Our Factories are located in Jeddah second industrial Area. The Facility extends over 100,000 sq.m with 60,000 sq.m built-up area. Our Factory has all the tools equipment and machinery in this profile

VISION

To become a leading steel manufacturer and industrial EPC in the Middle East and North African (MENA) region. We aim to achieve this by delivering long-term stakeholder value through profitable and sustainable growth

MISSION

AFCO aims to form partnerships resulting in innovative, cost-effective, and quality construction, exceeding our customers' expectations in a safe environment. In order to attain all our goals and objective, we lead a culture of excellence where loyalty, talent, creativity, open communication as well as integrity are our core guide line

BIM IMPLEMENTATION

INTELLIGENT WORKFLOW

Building Information Modeling (BIM) is a process by which design, construction, and operations teams interface with one interactive model. This enables early, direct collaboration between project stakeholders. The results are accurate analysis, intelligent design, proactive coordination, and predictable outcomes
